PROFESSIONAL SUMMARY

Information Systems Administration graduate with hands-on experience in technical support, database issue resolution, and web development. I have identified and corrected accounting discrepancies through SQL queries, maintained equipment and network infrastructure, and developed features and visual reports in web systems using C# and JavaScript. I have basic knowledge of Linux and networking, and intermediate proficiency in Excel. Currently focused on developing personal programming projects.

PROFESSIONAL EXPERIENCE

Web Development / Systems Intern

Porsalud

September 2025 – January 2026

Tegucigalpa, Honduras

- Implemented functions in C# and JavaScript to complete the user management module of a platform used by staff across multiple company sites, including collaborators in other countries, fixing incomplete features and clock-in charts that were not working correctly.
- Resolved issues in stored procedures and functions related to the system's logic, using the test database to validate corrections.
- Actively participated in the technical review of new features under development, verifying code logic and reporting errors prior to implementation.

Technical Support Assistant

Cooperativa La Reyna

August 2024 – October 2024

Tegucigalpa, Honduras

- Identified and resolved 4 accounting discrepancy incidents by comparing records within the database to locate differences reflected in the system.
- Executed SQL queries for data validation and correction in customer accounts, resolving inconsistencies in savings and credit accounts.
- Migrated the operating system and files of 2 computers to new equipment, ensuring information continuity during the hardware upgrade.
- Diagnosed and resolved failures in 5 internal IP phones, including replacement of faulty network cabling and IP address reassignment, restoring incoming calls.

PROJECTS

- Developed web projects using JavaScript, TypeScript, and React, including a personal finance dashboard featuring indicator visualization, comparative charts, and expense distribution, among other personal projects.

Portfolio: anthonyandino.vercel.app

EDUCATION

Bachelor's Degree in Information Systems Administration

Universidad Nacional Autónoma de Honduras (UNAH)

January 2020 – September 2026

Tegucigalpa, Honduras

CERTIFICATIONS

- Python 101 for Data Science – CognitiveClass.ai (IBM), July 2026

TECHNICAL SKILLS

Back-End: C#, JavaScript, Node.js, PHP, Express, Python, C++, Java, C

Front-End: HTML, CSS, JavaScript, TypeScript, React, Next.js, Tailwind, Bootstrap, jQuery

Databases & Tools: MySQL, PostgreSQL, SQL, Prisma, Git, GitHub, Postman

Data Analysis: Excel, Power BI (basic)

Infrastructure & Support: Technical support and equipment maintenance, basic networking, basic Linux

Other Skills: Teamwork, fast learner, adaptability to new environments, English B1
