Tegucigalpa, Honduras • www.linkedin.com/in/anthony-andino-ad • +504 9901-4535 • anthonyandino959@gmail.com

Information Systems Administration student about to graduate, with experience in technical support and database management in real-world environments. I have provided support in troubleshooting, SQL queries, and internal systems maintenance. Currently focused on developing personal projects in web programming and improving backend and database skills.

PROFESSIONAL EXPERIENCE

Porsalud

Web Development / Systems Intern

Tegucigalpa, Honduras

September 2025 – January 2026

- Maintained and optimized a user management web platform using C# and JavaScript
- Developed features within the system environment using web technologies
- Collaborated on technical review of new features in development
- Identified and reported critical issues in the application to ensure proper functionality

Cooperativa La Reyna

Technical Support Assistant

Tegucigalpa, Honduras

August 2024 – October 2024

- Provided specialized technical support to users on the cooperative's internal systems
- Executed SQL queries for data validation and correction in customer accounts
- Resolved database inconsistencies related to savings and credit accounts
- Configured computers, printers, and network devices to support office operations

PROJECTS

- Developed web projects using JavaScript, TypeScript, React, among others, focused on practicing programming logic, interfaces, and basic data structures.
- Portfolio: <https://anthonyandino.vercel.app/>
